One of the members of the house has recently returned from England where he has made a permanent arrangement with the eminent forwarding establishment of Messrs. CHAPLIN & HORNE, who will receive all goods for distribution in Europe, and promptly deliver them at their many agencies. On connexion with this extensive house give us facilities not heretofore enjoyed by any other parties.

CHAPLIN & HORNE being also the exclusive Agents in England for the Messageries Nationales of France, we have peculiar advantages for forwarding parcels through to France and other parts of the Continent.

Our houses at London and Liverpool will attend to the collection of accounts, and other business of a confidential nature in any part of the Kingdom, and with the assistance of several legal friends, will give special attention to all documents requiring attestation or other action.

We have authority to draw on the PROVINCIAL BANK OF IRELAND, and all its branches, and are prepared to furnish drafts for the convenience of our customers.

On the reception of goods or parcels in this country, they will be forwarded without delay to their destinations—those out of the city by the earliest Expresses.

Persons at a distance desiring to make shipments to England or the Continent, either by steamers or packet-ships, can leave their goods, or orders, at any of the offices of ADAMS & CO., and GREENE & CO., in the United States, who will receive and promptly forward them to us.

Our friends who may wish to visit Europe, and who desire INTRODUCTIONS in places where they may be strangers, will receive every accommodation from ourselves and our agents.

All who may be disposed to favor us with the shipping of their goods from England to America, will oblige us by directing their correspondents abroad to order such goods to be given in charge of CHAPLIN & HORNE (who have branches in every principal town in the Kingdom) "care of Edwards, Hale & CO., Liverpool," or "London."

☞ All Parcels from this country should be marked—"TRANS-ATLANTIC PACKAGE EXPRESS," care of EDWARDS, HALE & CO.

FACTS TO BE REMEMBERED.

CONSUMERS of PATENT OIL, PINE OIL, BURNING FLUID and CAMPHENE, will find it to their interest to call on the undersigned before purchasing elsewhere, for three simple reasons—

1st. Because we always have on hand and are daily selling, large quantities of the only PATENT OIL for tube Lamps, that is sold in Newport—for the sale of which, we are the only *Agent*, and which is, beyond all doubt, the best article for *Family* use ever introduced, for a brilliant and Cheap Light. It burns free and brilliant—free from grease, smoke or smell, and will not congeal or explode, and is sold at 70 cts. per gallon.

2d. THE PINE OIL and BURNING FLUID furnished us by the largest and most extensive Manufacturers in New York and Boston, enable us to *warrant* it as being *pure* and *genuine*. Every one speaks of it in the most flattering manner, as being a cheap and clean light, and is sold at 70 cts. per gallon; and the Pine Oil, for burning in Williams's Parlor Lamps, for 60 cts. per gallon.

3d. Though last not least of all, CAMPHENE RIDERS DOUBLE REFINED CAMPHENE, which is acknowledged by all, to be the best and cheapest article for light. It has stood the test of this community for the last six years, notwithstanding the many attempts to crush it, by introducing an old stock article from New York and Boston. The superior advantage ours has over *foreign Camphene* is, that we distill it fresh twice a week, and consequently it will not smoke or crust the wick, like an article bought from abroad. Thus, we furnish the public with an article from which they can obtain any quantity of Light, (equal to Gas Gas,) at one-third of the expense, at the same time safe, clean, and free from smoke or smell.—All the above are FACTS, for which we hold ourselves responsible to the letter, or we feel it our trouble, not to mention, and our earned honor.

Agents, Dealers of every description for handling the above, for which we are Agent for the Manufacturers, will find it their interest.

Wicking, Tubes, Cans, Keys, &c.; and, in fact, everything, pertaining, in every particular, to the Cheap Light system. Therefore, we say to everyone, that desires a brilliant and economical light, to call on *Central* corner before purchasing elsewhere.

MORE CURES

EFFECTED BY DR. CORBETT'S SHAKER SYRUP OF SARSAPARILLA!

The following is from Jacob P. Eastman, of Concord, N. H., extensively known as an efficient Railroad Contractor and Builder, throughout the New England States.

BOSTON, March 8, 1849.

Messrs. E. BRINLEY & Co.

Gentlemen:—Happy am I to inform you of the wonderful effects of Corbett's Sarsaparilla upon a little daughter of yours, who was *poisoned*, when, at the age of about three years, by *vaccination*.—Eruptions of the skin covered her whole body for more than twelve months, discharging the most offensive matter. We were compelled for months to oblige our little sufferer to wear mittens while in bed, and to adjust her night-dress by closing the openings at the hands and feet so as to prevent her from tearing her flesh. But even with these precautions, she would, at times, release her hands by gnawing her mittens about the finger ends, and the slightest scratch not lacerate herself severely until the blood would flow.

She is now nearly restored to health, having used no other medicine for the last two years than "Corbett's Sarsaparilla." The effect of this powerful alterative is most signal, serving to cleanse the whole system and eradicate all disease. The skin of our little girl is now fair as that of infancy, and her system rapidly changing from impurity and disease to perfect health, and this I know to be the result of the use of Corbett's Sarsaparilla only. J. P. EASTMAN.

Made and put up by the Society of Shakers.—None genuine without the signature of Dr. Corbett.

DR. CORBETT'S HIGHLY CONCENTRATED SYRUP OF SARSAPARILLA.

The Formula of this invaluable Preparation has been laid before many of the different Medical Societies in New England, and has received in every case their especial commendation. It has been acknowledged as the most powerful antidote yet known! Thoroughly cleansing the Blood! Eradicating Scrofulous Taint and affording the most healing qualities to Diseased Lungs! and giving to the consumptive Restoration to Health!

The celebrated Surgeon and Physician, Dr. Valentine Mott, President of the New York Academy of Medicine, has given his especial notice to the awesome Preparation of Dr. Corbett's, and permits us to refer to him as to its virtues.

This is testimony most ample! but in Boston, other distinguished Physicians have also afforded their approval of this signally efficacious medicine. Such as Dr. J. C. Warren, Dr. J. W. Warren, Dr. Geo. Hayward, Dr. John Jeffries, Dr. J. V. C. Smith, and others; many of whom have given their names in writing in favor of its curative powers.

Alexander B. Mott, Esq., Druggist of New York, son of the distinguished Dr. Valentine Mott, writes us under date Nov., 1848:—

"The Physicians of this city who have made use of Corbett's Syrup of Sarsaparilla, express themselves pleased with its effects and are constantly ordering it."

These are credentials the public may rely upon! for they are those of the highest authority and the largest experience in Medical Science and research.

LITTELL'S LIVING AGE,

E. LITTELL & Co., cor. of Tremont and Bromfield streets, Boston.

This work is conducted in the spirit of Littell's Museum of Foreign Literature, (which was favorably received by the public for twenty years,) but as it is twice as large, and appears so often, the editor not only gives spirit and freshness to it by many things which were excluded by a month's delay, but while thus extending his scope and gathering a greater and more attractive variety, is also so to increase the solid and substantial part of his literary, historical, and political harvest, as fully to satisfy the wants of the American reader.

The elaborate and stately Essays of the Edinburgh, Quarterly, and other Reviews; and Blackwood's noble criticisms on Poetry, his keen political Commentaries, highly wrought Tales, and vivid descriptions of rural and mountain Scenery; and the contributions to Literature, History, and Common Life, by the sagacious Spectator, the sparkling Examiner, the judicious Athenæum, the Irving and Independent Literary Gazette, the sensible and comprehensive Britannia, the sober and respectable Christian Observer; these are interwoven with the Military and Naval reminiscences of the United Service, and with the best articles of the Dublin University, New Monthly, Fraser's, Tait's, Ainsworth's, Hood's, and Sporting Magazines, and of Chambers' admirable Journal. He does not consider it beneath his dignity to borrow wit and wisdom from Punch; and, when he thinks it good enough, makes use of the thunder of the Times.

The steamship has brought Europe, Asia, and Africa, into our neighborhood; and will greatly multiply our connections, as Merchants, Travellers, and Politicians, without parts of the world; so that much more than ever it now becomes every intelligent American to be informed of the events and change of foreign countries. And this not only because of their nearer connection with ourselves, but because the nations seem to be hastening, through a rapid process of changes, to some new state of things, which the merely political prophet can see comparatively faintly.

Geographical Discoveries, the progress of Colonization, (which is extending over the whole world,) and Voyages and Travels, afford favorite matter for his selection; and, in general, the editor systematically and very fully acquaints his readers with the great departments of Foreign affairs, without neglecting our own.

While the Living Age is desirable to all who wish to be informed of the rapid progress of the times, it is so to Statesmen, Divines, Lawyers, and Physicians—to Merchants and Scholars—and to a class it will be found to be equally attractive and useful to their wives and children. It is indispensable to every well-informed family. We say it is indispensable, because in this day of cheap literature it is not possible to guard against the taint of what is bad in taste and virtue in morals, in any other way than by furnishing a sufficient supply of a healthy character. The mental and moral appetite must be gratified.

By condensing the wheat from the chaff, by providing a boundless for the information, and by a judicious collection of Biography, Voyages and Travels, History, and more solid matter, a work is produced, well calculated for universal popularity, and to raise the standard of public taste.

This excellent work is published every Saturday, by E. LITTELL & Co., Boston, who supply it to subscribers in all parts of the country. Remittances to the publishers will secure the work to all who send. Each number makes a handsome volume of 192 pages, double imperial octavo. Price, $12 1-2 cts., post paid by the year, six dollars. We need Country non-recommendation, all that we need will value sufficiently to give a letter from the late Ex-President of U. S. Adams:—

"WASHINGTON, 25th December, 1845.

Of all the Periodicals which are sent to Europe and the United States, none can be selected for Europe and the United States, which shall be equally valuable to both. Through the whole course of my life, I have been a constant reader of periodical publications, and I know of none which I can so unreservedly recommend to my friends, as the Living Age. I know of no other which I can so unreservedly recommend to my friends, as the Living Age. I know of no other which I can so unreservedly recommend to my friends, as the Living Age. I know of no other

THE WHITE SPRAY,

OR THE

PEDLAR OF NEWPORT.

BY SYBIL HASTINGS.

CHAPTER I.

(Continued.)

For more than three years Kate Ellis and Sybil Conyers were inmates of the Oakland School—a large seminary in one of the loveliest villages of Western New York. For more than three years the shadows of the night fell upon two young heads pillowed upon one couch.

Never was there a more devoted affection between two school-mates, than for that space existed between Sybil Conyers and her friend, Kate Ellis. But towards the close of the last term a change came over Sybil, and they who were once inseparable were now rarely seen together in their leisure hours. But even in her grief, Kate found one consolation; for if Sybil shunned her society, she had taken no friend to her bosom.

No longer was Sybil Conyers the joyous, warm-hearted girl, who had gladdened all with her gaiety; but silently she would now steal away from her companions, and sit hour after hour by herself, brooding over some inward grief. The annual examination was fast approaching, and Sybil and Kate Ellis were the rival candidates for the highest prize in composition.

There were a few, (and but a few, for Sybil was universally beloved,) that attributed the girl's change of manner towards Kate to the above-named cause. But those who knew her well believed it not; although she seemed now burning with the desire to conquer. Hour after hour would she sit with her head bowed low above her books, and Kate would mark her pale cheek burn and glow, and hours would pass ere she turned a leaf; all her wonted quickness appeared to have taken wing. As the long looked for day drew near, her cheek grew ever thinner, although it burnt with a feverish glow, and the step which bore her to and from the recitation room grew ever more slow and wavering. A strange dark cloud appeared to be gathering over her, and each successive day found her more silent and sad than the previous one.

But three days intervened between them and the examination; when one night, long after the bell had rang, announcing the hour of retirement, as Kate lay silently thinking of the change in her friend, Sybil arose, and noiselessly lighted a lamp; folding her dressing-gown about her, she opened her desk. Once Kate had spoken, and begged her to lay her weary head upon her pillow, for weary indeed she looked as she set there with the light falling full upon her. For a moment she would pause, as gathering her thoughts, then, with a slow, hesitating movement of her pen, she would write, folding each line beneath the other, and all the while bending low above the paper, drawing the lamp ever closer, until its rays fell broad and full upon her desk.

For a long time she sat thus, making little or no progress, when, at a slight movement of the one she deemed asleep, the lamp was instantly extinguished, and Sybil stole softly back to her pillow.

The second night came, and once more she arose and bent above her desk, and still Kate had not the courage to disturb her. But when the third and last night at Oakland had come, as Sybil stood before the glass, tucking her curls beneath a tiny cap of muslin, with drooping eye-lids, never looking upon herself, as it is a girl's want to do, with a mirror before her, Kate spoke, and her voice was tremulous with emotion.

"Sybil, it is our last night at Oakland."

"Ah, I had not thought of it," she answered abstractedly.

"Not thought of it, Sybil!" burst indignantly from Kate's lip. "Is this, then, the end of all our love? Take the prize, Sybil Conyers: not for the whole world's applause would I change thus." For a moment the girl stood breathless, while alternately a deadly pallor, and crimson flush, swept over her face. When Kate ceased, she pressed her hands heavily upon her drooping lids, then went slowly up to her friend's side, laid her cold hands within her own, saying, solemnly:—"Hush, love! words like these will ever haunt you. Hush! I am weak, I cannot bear much."

NEWPORT.

BY CRANSTON & NORMAN,

127 THAMES STREET.

THURSDAY MORNING, MAY 2, 1850.

☞ At best, the wisdom of Divinity allows us but a few brief years on this busy stage of action; and if we properly improved our sojourn here, each rolling year would gather knowledge and strength and goodness. At the close of each of these periods of time, we should look back upon the rapidly vanished past, and feel that it had been well improved, and we should then have no fearful forebodings, no terrible dread of that moment when the spirit must yield its grasp upon mortal things, and pass away to the judgment of its deeds while here. Ordinarily, honest men are actuated by conscience, or pride, or something of that kind, and in their transactions with each other, they so endeavor to discharge their duties as not to be ashamed of them at a future time, particularly if they know that they are to be reviewed by others at a distant period. How much more important is it, therefore, for all so to live that when their deeds are to be inspected by the Power which is infinitely above and superior to all earthly tribunals, they shall meet the full approval of Him who will justly discriminate between right and wrong. We are not living on this earth for a day, nor for all time; but we are living for *eternity*; we are now carving our own pathway; we are selecting our own destiny; we are choosing a home for the future. If we trifle away all the opportunities which are afforded us; if we sneer at the stern realities which surround and await us, in this hour of our possession and our fancied happiness, we *must* take the consequences which will ensue. Some do not consider it *manly* to possess a humble spirit, and to acknowledge the perilous condition of life; some laugh at the idea that a secular press should devote any of its space to matters of so serious a nature, because they say that the source from which such thoughts and suggestions emanate is not the proper fountain of goodness. They are fully entitled to these opinions, if they choose to entertain them. We are all free moral agents in this world, and we are perfectly at liberty to do just as we please, and we are answerable to no power on earth, provided we do not violate human laws; there is no authority, in this country, which can hold us responsible for our creeds or our doctrines. We may be immoral and irreligious, and yet pursue a harmless career. It is beyond the storms of life, and beyond the gloom of the grave that we are to render an account of our steward-ship; and if we are individually disposed to assume that responsibility, earth's powers cannot prevent us. Neither has any man a right to question good advice which is given, particularly when that counsel corresponds with the Divine law. Reason and Revelation are sufficiently ample to guide us safely along the pathway of life, however dark and intricate its passage may be; and we prefer to give sound advice, at the risk of man's derision, instead of trifling time and opportunities, and neglecting duties, with the certain prospect of being held accountable hereafter for having exerted an evil influence, or neglected the occasion of doing some good among those with whom we live, and with whom we are intimately associated in all the varied relations of life.

We have an indistinct idea of what the reflections of the mind must be, at life's last closing scene, when but an hour or two more will be given it; we can dimly conceive of that crowd of events passing rapidly yet vividly in review before the agonized soul, conscious of its condition, yet trembling for its destiny; we can see it writhe in its torture; we can hear it moan over its follies and its sins; we can hear its despairing sigh as it feels that it is too late now to retrace its course—that no act, at this moment of dissolution, can make amends for its errors,—and we can see it inwardly shrink, as it is tossed with the last convulsions of woe, and vainly endeavor to escape from the grasp of death, which is more fearful and more horrible from its silent, its cold, its paralysing progress.

Our moments here cannot be too cautiously guarded and cherished; they cannot be too carefully improved,—for just in proportion as we properly use them, shall we be useful on earth, and rewarded hereafter.

It is not only necessary for us to be scrupulous in our actions, but our *thoughts* also must be trained and watched; misspent time in idle and unprofitable thoughts will be charged to our account in the last settlement of life's transactions. Therefore,

"Beware of thoughts! They whisper to the heavens;
Though mute to thee, they prompt the diamond pen
Of the recording angel.
Make their friends!
Those dread secretaries for eternity—
Those sky-reporting heralds,—*make them friends!*"

☞ The Germanians give a Concert in Providence tomorrow evening; if our neighbors desire to listen to the most exquisite music which has ever yet greeted their ears, they will attend this Concert.

☞ Queen Victoria has recently settled an annuity upon the wife of Tom Moore, the poet. There have been various reports, during the last year, that Moore's brain had become softened, and that he was consequently bordering on idiocy. These stories have never been contradicted by the English press, and hence we are inclined to the opinion that they are true. It is certainly a lamentable thing, that one so gifted, and who has charmed so many thousands through a long series of years, should be doomed to so melancholy a fate. And yet, no man has so fearfully abused the gifts of God, as Tom. Moore. Perhaps this visitation of Providence upon him is rather a merciful dispensation of Divine Wisdom; for, if his faculties remained undimmed, at this closing hour of his life, he surely could not look back with pleasure upon the past, or derive any satisfaction from the result of his labors. It is true, he has written some of the sweetest poetry in the language,—poetry which will live long, very long after he is dead. But he has also written much which has accomplished nothing but evil—much which appealed only to the wildest passions of the heart, and tended to arouse in the virtuous bosom feelings which, if they naturally existed there, should rather be smothered than enkindled. His poems have touched a vein in many a female bosom, and aroused emotions which have urged their possessors rapidly on to ruin. Could he reflect on these things now, when it is to be presumed that the fire of inconsiderate youth has all gone out, and left only a blackened desolation, he could not remain calm and quiet, and feel that he had discharged all life's obligations, and that he was prepared to return to the Giver of all gifts, the talent which had been entrusted to him, with that useful interest which will be required.

☞ Thomas Carlyle says that the United States of America is a nation of bores. This *may* be true; but we do not know of a man who has more indisputably proved himself to be the prince of bores, by the nonsensical productions of his pen, than this same milk-and-water, nursery-porridge Thomas Carlyle.

MR. CALHOUN'S OBSEQUIES AT CHARLESTON.—The remains of Mr. Calhoun arrived at Charleston on Thursday morning, in the steamboat Nina, from Wilmington, and the day was devoted to the preliminary funeral solemnities. The Charleston News says:—

There was an universal suspension of business, public and private, the banks, the insurance offices, the counting houses and stores of every description being closed.—A larger number of persons appeared in procession than has been known to assemble for a similar purpose in the history of our community, such was the universal desire to honor the obsequies of our lamented Senator.

Hundreds of citizens from various parts of the state visited the city, to view or participate in the ceremonies. On every side the tokens of sympathy and respect were visible. The fronts of the private dwellings, stores and hotels, on those streets through which the procession passed, all the public buildings, the City Hall, the State House, the Guard House, the Exchange Hibernian Hall, the fire proof building, with the towers of St Michael's Church, were clothed in the emblems of mourning.

The sounds no less than the sight of general sorrow—the muffled drums, the firing of minute guns, the tolling of all the bells of our various churches, the plaintive tunes of military music from several bands—all gave melancholy assurance that one universally beloved was universally mourned.

On Friday morning the religious services took place. A civic procession was formed at 10 o'clock, and proceeded with the remains from the City Hall to St. Philip's Church, where the funeral services having been performed by the Rev. Christopher Gadsden, a funeral address was delivered by the Rev. James W. Miles, to a crowded auditory.

MR. CALHOUN.—The family of Mr. Calhoun have reconsidered their determination not to permit the remains of the distinguished statesman to repose temporarily in Charleston.

☞ Henry Clay, Jr., son of the gallant Lieut. Col. Clay, of the Kentucky Volunteers, killed at Buena Vista, has been appointed a Cadet in the U. S. Military Academy.

☞ The Court of Inquiry, in the case of Lieut. Hunter, has finally adjourned; and the record will be forwarded to the Secretary of the Navy for his action.

☞ The citizens of Memphis have voted a subscription of $500,000, and private citizens have added $260,000 more, to the stock of the Memphis and Charleston Railroad, which is intended to pass along the valley of the Tennessee river, through Tuscumbia, and near Huntsville, Ala.—Madison county, Ala. has subscribed $300,000, and will make it $500,000. The organization of the Company is to take place at Tuscumbia on the 20th inst.

☞ Hon. Robert C. Schenck declines being a candidate for reelection to Congress from the 3d District of Ohio.

BY TELEGRAPH.

CONGRESS.

WASHINGTON, Tuesday, April 30.

SENATE.—Mr. Foote presented the credentials of his colleague, Mr. Jefferson Davis, who was re-elected for another term.

Mr. Benton gave notice that he would very shortly introduce a bill to grant Missouri as much land for internal improvements as was given to other states.

Mr. Dawson presented the resolutions from the Legislature of Georgia respecting mail routes, and the report of the Postmaster General upon the same subject.

Mr. Hunter reported back the bill to regulate the coinage with an amendment authorizing certain transfers.

The amendment and bill were taken up and passed.

Mr. Yulee, of Florida, offered a resolution calling upon the President for certain information respecting the Seminole Indians which was adopted.

Mr. Bradbury of Maine introduced a bill to provide for the investigations of certain claims against the United States.

HOUSE.—After the usual opening business, Mr Jones appealed from the decision of the chair against the reconsideration of a parliamentary step in reference to the Franklin resolution.

Mr. Stanton arose to the point of order, whether the question was debateable, but was overruled.

Mr Jones then spoke upon the sustainment of his appeal, but the House laid it upon the table.

It was then resolved to close all debate upon the census bill by one o'clock to-morrow.

The House then went into committee of the whole on the state of the Union.

Mr. Libby gave notice of an amendment to the census that the Indians be included.

He pictured in a startling manner their miserable condition. He said that some five thousand of them have already been starved to death.

Mr. Willson opposed the bill.

CLEVELAND, Ohio, Monday, April 29.

An extra from the office of the *True Democrat* announces that the steamer Anthony Wayne blew up opposite Vermilion on the 21st inst. The Wayne came to Sandusky with ten steerage passengers and 20 in the cabin. At Sandusky she took from the train 21 passengers, which, together with her crew, made 71 in all. The number of lost and missing is 35 to 40.—Nineteen of the crew and 30 of the passengers were saved, and are in a fair way of recovery.

CHARLESTON, Friday, April 26, 1850.

☞ The steamship Southerner will be detained until Sunday morning, 9 o'clock, for the purpose of taking to New York the "Senate Committee" that accompanied the remains of Mr. Calhoun from Washington.

WASHINGTON, Monday, April 29.

The Court was engaged to-day on an interesting question of Constitutional law, in regard to the power of Congress to protect the coin of the country from counterfeiting. The cause was argued by the Attorney-General for the United States, and by Mr. Seward for defendant.

☞ Professor Norton has taken a house in this town, for the Summer, and will remove here in the course of ten days.

☞ We are indebted to the Hon. George G. King for valuable Public Documents.

IMPORTANT TO CONSUMERS OF PINE OIL, PATENT FLUID, AND PHOSGENE.

HAVING first introduced the above in this community, we are enabled, by early arrangements with the Patentees and Manufacturers, to supply such only as can be warranted genuine and of the first quality. We have on hand and for sale in any quantity, the following articles for producing *cheap light*:—

1st. The genuine PINE OIL, for tube Lamps, for the sale of which, we are Sole Agents for this place; the best Oil in use, being clean and pure, and more durable than any of the Oils or Fluids. Mr. GEO. B. KNOWLES is authorized to sell the above.

2d. THE DOUBLE PINE OIL—a colorless liquid of great strength—an excellent substitute for Camphene, giving more light, and is also *cleaner* and *cheaper*.

3d. PORTER'S FLUID—the genuine kind—furnished to us by Mr. P. himself, the original Patentee; perfectly pure, colorless and safe.

4th. PHOSGENE GAS, producing an even and unvarying light of great beauty, resembling the gas of the cities.

All of the above, we warrant fully, and are ready to refund the money if they do not prove as warranted.

A great variety of Lamps on hand, for sale *cheap*: Solar, Argand, Astral and common tube Oil Lamps, altered to burn the above; prices ranging from 12 1-2 cts., up along.

Patent Filling Cans, Wicks, &c.

B. H. TISDALE & SON,
Feb28 138 Thames street.

SAVE YOUR MONEY.

VERILY, THIS IS THE AGE OF HUMBUG!

TO CONSUMERS OF FLUIDS, PATENT OILS, CAMPHENE, &c.

HOW easy it is, and still more silly, for a person to sit down and write an advertisement praising every or any article that they may happen to have to sell, and running down that of their neighbors, which they know to be quite as good as their own, and, in many cases, better. But such is characteristic of the age we live in. But the public has been so gassed up of late, with these flaming, bombastic advertisements, that they now know just what weight to attach to them. We believe that advertising, when not abused, to be a benefit to all; but, like many other things, it must be overdone with

Gas! Gas!! Gas!!!

We would say to all, use your own judgement—it is the only alternative.

I have the following articles, which is the best, cheapest and cleanest, of any Oils or Fluids now used, for producing a brilliant light:

Burning Fluid,	- -	70 cts. per gall.
Pine Oil,	- - -	70 " "
Camphene,	- - - -	60 " "
Phosgene,	- - - -	70 " "
Patent Fluid,	- - -	70 " "
Williams's Fine Oil,	-	60 " "
Double Pine Oil,	- -	60 " "

And all the other Oils. We are daily receiving fresh supplies of the above kinds of Oils and Fluids, from the largest Manufacturers in the country, and we defy all competition in prices or quality. We expect that others have as good an article as ours, but we know that none have a better or a cheaper. Never, in one instance, has there been a complaint brought against it, and not one family that has given it a trial, but what continues to use it in preference to all others.

Also, Lamps of every description, for burning the above, for which, I am Agent for the Manufacturers, and will sell at their prices. Wickings, Tubes, Cans, &c., &c., and every article ever called for, kept in a Lamp store; and we advise all that desire a brilliant and economical Light, to give us a call, and they will find us ever ready to fulfil our promises to the letter.

THE UNION MUTUAL FIRE INSURANCE CO.,
CONCORD, N. H.

THIS Company was chartered in June, 1848, and went into operation in October following; since which, it has issued 3615 Policies, covering by insurance more than two and a half millions of property. The whole amount of property now at risk is $2,137,030.

The aggregate Capital of the Company amounts to $250,000.

In accordance with the provisions of their Charter, the Directors have divided the property at risk into the following THREE CLASSES—each being liable for its own losses.

THE FARMERS' CLASS, which insures for six years, is composed entirely of Farmers' property, on which they have now insured $486,000.

VILLAGE CLASS, insures safe property in Towns and Villages, such as Dwelling Houses, their contents, out buildings, &c., for six years.—The amount now at risk in this class is $605,000.

MERCANTILE CLASS, insures for three years, and is constituted of Stores, Merchandize, Public Houses, Churches, Printing Offices, &c. The amount of property now at risk in this class is $760,000.

MANUFACTURERS' CLASS. This Class is composed of most kinds of hazardous property, with the exception of steam risks—in which the amount insured is $610,000.

The Company have, thus far, been very fortunate; the whole aggregate of losses in the three first classes combined, does not amount to $2,000 since the Company went into operation. They are now, and have been for several months past, issuing at the rate of 5000 Policies per annum.—Their capital is consequently rapidly increasing, and the Directors with confidence commend the Company to the public, as a medium of Insurance founded upon the most equitable principles and promising the most favorable results.

The above report was made the first of January, since which time, a large number of Policies have been issued.

DIRECTORS.—J. A. Potter, Asa Fowler, N. S. Chandler, T. P. Treadwell, A. Baker, John Gass, N. B. Baker, Zenas Clement, A. Bean, B. W. Sanborn, George Potter, Cyrus Barton, Asa McFarland, B. F. Page.

PEOPLE'S MUTUAL FIRE INSURANCE COMPANY,
WORCESTER, MASS.

THIS Company commenced operations in May, 1847, and has received so liberal a patronage, that it has obtained a permanent character for prudent management, not surpassed by any Company in the Commonwealth, taking so great a variety of safe risks.

The Directors feel justified in recommending this Institution to the favorable consideration of the public, pledging themselves that every effort shall be made on their part, to continue its prosperity, and furnish such a security against loss by fire, as shall remove all anxiety on the part of those insured.

They have an Agent for the State of Rhode Island, who is thoroughly acquainted with the principles of Insurance. They also employ a General Agent, whose duty it is to examine and inquire into the nature of the risks taken, and when there is any defect in the building or carelessness on the part of the Insured, to report the same to the Board of Directors.

They effect Insurance on all kinds of Buildings, except those of an extra hazardous character. Also, upon Neat Stock, Hay and Grain, Household Furniture, Provisions, Wearing Apparel, Libraries and Merchandize generally, and also upon all kinds of Manufactured Articles and Stock in the process of Manufacture, excepting Stock in Cotton, Woolen and Paper Mills, or property alike hazardous, for any term of time not exceeding five years.

Their Rates of Premium are established upon a basis sufficiently guarded to avoid all Assessments. The Dividends have averaged 50 per cent on all Policies that have expired in this Company, and it is believed that still larger dividends will be made in future.

EDWARD HEMENWAY, President.
OLIVER HOUGHTON, Secretary.

Office, No. 3 Brinley Hall, opposite the American Telegraphic House.

JOHN ADAMS, Sole Agent for the State of Rhode Island, is prepared to effect Insurance at his Office, No. 32 WESTMINSTER STREET, Providence, and UNITED STATES HOTEL, Newport.

*** Persons wishing to effect Insurance, are respectfully requested to call and examine the basis on which this Institution is based, and avail themselves of its benefits.

N. B.—Mr. Adams will be at his Office in Newport, *Tuesday* and *Wednesday* of each week.

THE REMARKABLE SANATIVE POWERS OF

DR. S. P. TOWNSEND'S

COMPOUND EXTRACT OF

SARSAPARILLA,

Have induced numerous attempts to counterfeit it, and make fraudulent use of Dr. TOWNSEND'S NAME to secure the sale of SPURIOUS ARTICLES.

These counterfeits and imitations only prove the VALUE of the ORIGINAL; and no higher compliment could be paid to Dr. S. P. Townsend's Extract of Sarsaparilla than the laborious efforts that have been made by many to get up SOMETHING LIKE IT. TO THE PUBLIC.

The public are respectfully informed that the preparation extensively known as DR. S. P. TOWNSEND'S COMPOUND EXTRACT OF SARSAPARILLA has now arrived at a pitch of excellence by direction and expenditure from the old recipe obtained from Dr. S. P. Townsend; and I certify that it is compounded from the PURELY VEGETABLE, and WITHOUT MERCURY; and also that the increased sale justifies my recommending it to all who know the great medicinal effect.

JAMES R. CHILTON, M.D.,
Chemist

Dr. Chilton's name is surely that the elements of this Extract are combined in the most correct and scientific manner, and that it is adapted to the wants of the invalid, with the highest professional ability.

THIS WE HOPE WILL BE SUFFICIENT GUARANTEE to the public, and to those purchasing Dr. S. P. Townsend's Compound Extract of Sarsaparilla. Such may have no fear of getting one of the spurious and DANGEROUS MIXTURES which fill the channels of trade, and are connected without any knowledge either of the nature of remedial agents, or the wants of the human system when laboring under chronic disease.

DR. S. P. TOWNSEND'S SARSAPARILLA

IS WARRANTED TO

Keep for any Length of Time,

IN ALL CLIMATES.

CAUTION.

To avoid mistakes it will be necessary to see that

Dr. James R. Chilton's Certificate

as well as the SIGNATURE of Dr. S. P. Townsend, is on the outside wrapper of each bottle.

BRANT'S INDIAN PULMONARY BALSAM

cures very many of the most strongly marked and developed cases of PULMONARY CONSUMPTION—*such, in fact, as have all the characteristic* DISEASE—*and to which, if not cured, death is the inevitable result.*

By its use many were snatched from the grave, who had been declared incurable by other medicines. So also many others were saved from the effects of the Liver Complaint, Dyspepsia, Debility, Headache, Costiveness, Loss of Appetite, Nervous Complaints, Palpitation of the Heart, Chronic Inflammation, Dysentery and Summer Complaints in Children and Adults, and all Female Weaknesses.

CONSUMPTION.

A DYING WOMAN CURED!

We state this case, to prove the power to save life when all BALSAM failed, even after it appeared to be *considered by physicians and friends to be in the last stages of disease*—actually DYING—yet, in this case, to the astonishment of the friends and neighbors, it was *speedily cured by the use of BRANT'S BALSAM, when all other means had failed.* For the particulars of this case, and the *respectable and unimpeachable proof* of all the circumstances and facts, we refer to our PAMPHLETS.

This cure was effected on Mrs. ZIBA DYKEMAN, *of Mechanics Spa, Saratoga County, N. Y.* We can prove, beyond a doubt, *many others almost equally striking, and as unanswerable cases of Coughs and Consumption CURED, which were pronounced incurable by* WHITE PHYSICIANS.

A DOCTOR CURED!

DR. J. W. FRENCH, *of Hillsdale, Hillsdale county, Mich.*, says, about the 1st of January, 1849, wrote as follows: "I have been in the regular practice of medicine in this place for nine years, but was obliged to quit the practice of my profession in consequence of ill health. I was so severely afflicted with a *Chronic Disease of the Lungs*, as to convince me that I had the CONSUMPTION, and that a few months longer sealed my doom. I coughed incessantly, night and day, and had severe pain and soreness in my chest, side, and breast. I used the remedies recommended by the most skilful of the profession, all to no effect, excepting the nausea and debility caused by them. I was in fact reduced to a skeleton, and gave up hope, now in them generally. But I was induced to try an experiment, more from a mere faith—to try a bottle of BRANT'S INDIAN PULMONARY BALSAM; and I do now acknowledge, for the benefit of the afflicted, to whom it may serve, that the effect of its use was so far more prompt and salutary of any medicines I ever received, the effect of which my practice. My cough was *immediately relieved*, and in about eight or ten days I was *free from cough, soreness of the chest*, and pain, and now could *sleep and perspire easily*, a WELL MAN."

Dr. French is now a respectable druggist at Hillsdale.

FITS, FITS, FITS.

Messrs. J. K. LIPPINCOTT & SON, respectable merchants at *Bellevue, Sciotto county, Ohio*, wrote us as follows: "On the 1st of January, 1849, we wrote you that we had been cleared from the use of BRANT'S PULMONARY BALSAM, that one of their customers had just informed them that her child, which had been subject to FITS *for several years*, was cured by the use of BRANT'S BALSAM.

Would soon be in a Grave.

Mr. WILLIAM D. JENNINGS, a merchant at *Perryville, Chester, Ashtabula county, Ohio*, wrote to us, October 1, 1848, and stated he was cured of CONSUMPTION by the use of BRANT'S *INDIAN PULMONARY BALSAM*, and offered to Mr. WILLIAM CROCKET, of an adjoining town. He said Mr. Crocket had sought relief from the best physicians, and had exhausted medicines, but found none. He said he had *given up hope*, and was *fast sinking into a consumption*, and had taken far both on his vitals, and was so discouraged and disheartened, he felt that he was *more sick* than he was prior to his taking BRANT'S BALSAM. He was given up by his physicians and all friends, as one who would soon be *laid in grave*. But even in this desperate case, the result was as it may seem, just as it is true, that the use of only *five bottles* of BRANT'S INDIAN PULMONARY BALSAM has restored Mr. Crocket to health, and he is now a *healthy, hearty, vigorous man*."

S. D. DANN, Esq., *merchant and postmaster at Jefferson*, an adjoining town, wrote to us about the same time, and stated that he was acquainted with Mr. CROCKET, and *testified to his cure, and all the above named facts.*

Could not Live a Day longer!

Messrs. S. R. CALDWELL & CO., of *Fort Covington, Franklin Co., N. Y.*, wrote us, January 1st, 1849, as follows: "We have just heard, through Mr. Whitcomb, a responsible citizen of this place, of an important case of *Consumption*, with BRANT'S INDIAN PULMONARY BALSAM has produced in the wife of an acquaintance of his, who resides in the town of Dickinson, in this county. She had been a large consumptive for long, and was so exhausted by the disease, that her friends believed it impossible for her to live more than ONE DAY LONGER. But, with all other remedies utterly failed, she commenced taking BRANT'S PULMONARY BALSAM, and has so far improved as to be able to walk from her room across the house, and is now going about and attending to her domestic affairs and duties. She attributes her recovery to the use of BRANT'S BALSAM, and we think it very evident, that she is indebted to BRANT'S BALSAM for her recovery from a long, severe, and dangerous sickness, and that her friends might not consider that medicine invaluable?"

RAISED FROM THE GRAVE.

Messrs. PRATT & FOSTER, *merchants, of West Pennsville, Conn.*, said *BRANT'S BALSAM* had effected cures of such hopeless cases of Consumption in this town, that no other compound medicine could be sold there; that it had raised some *from the very jaws of death*, when the physicians and all the friends said MUST DIE! The gentlemen, in particular, was so far gone, that his physicians told him it was useless to take any more medicine. He then, as a last resort, began to take BRANT'S BALSAM—and *was cured, and is well as ever to-day!*

Many Consumptions Cured.

Mr. S. H. CLARK, merchant, *Clyde, Wayne county, N. Y.*, wrote to us, stating that BRANT'S PULMONARY BALSAM sold readily at Clyde, and said: "If the testimonials of cures of consumption, which I have in my possession, and which, to the knowledge, can be verified on the medical circumstances, *cured many consumptive persons*, several of whom I am acquainted with, who were so hopelessly sick as to be considered by physicians as beyond all hope of cure; and yet, the *facts are*, BRANT'S BALSAM has restored them to PERFECT HEALTH."

LUNGS BLED—MUST DIE!

Mr. T. S. TERRY, *merchant, Byron, Genesee county, N. Y.*, wrote August 21, 1848, as follows: "BRANT'S BALSAM works admirably. It has cured a case of *Consumption* that all the physicians had said *must die*. When he commenced taking Brant's Medicine, he could not raise his head to his body; he *bled at the lungs*, and every day was considered by relatives and friends as the last. He is now able to labor, and rides all over the country. The cure is *truly astonishing*. It has also cured a young lady of Consumption in Orleans county, which her father says is a doctor cured me."

Mr. MILLER, a merchant of the same place, has certified to the truth of the above statement.

Was believed past Cure!

Mr. CORNELIUS H. SMITH, merchant, *Collin Centre, Erie Co., N. Y.*, January 16, 1849, wrote: "Your BRANT'S INDIAN PULMONARY BALSAM and BRANT'S PURIFYING EXTRACT are nearly all sold, and I want immediately another supply, for they sell more rapidly, and give better satisfaction than any other medicines we have for sale. The *Pulmonary Balsam* has resulted in a little less than a dozen of CONSUMPTIONS, which all the doctors PRONOUNCED INCURABLE. They said she MUST DIE with a *Consumption*, but I have sold and recommended the case HOPLESS, she is now cured using *BRANT'S BALSAM*—and now *she is well!*"

CHRONIC DYSENTERY,

and BOWEL COMPLAINTS, in children or grown persons, cured without any future sickness. Agents.—

CHOLERA INFANTUM

No mother need ever mourn the death of her child by that cholera infantum complaint, when teething in warm weather—*if she has BRANT'S PULMONARY BALSAM!* We have just heard, through Mr. Whitcomb, a responsible citizen of this place, of an important case of *Consumption*, with BRANT'S INDIAN PULMONARY BALSAM has produced in the wife of an acquaintance of his, who resides in the town of Dickinson, in this county. She had been a large consumptive for long, and was so exhausted by the disease, that her friends believed it impossible for her to live more than ONE DAY LONGER. But, with all other remedies utterly failed, she commenced taking BRANT'S PULMONARY BALSAM, and has so far improved as to be able to walk from her room across the house, and is now going about and attending to her domestic affairs and duties. DOCTORS CALL IT WONDERFUL.

DOCT. IRA JOHNSON, of *Lewiston, Genesee Co., N. Y.*, wrote to us, January 1st, 1849: I became acquainted with some of the astonishing effects of your BRANT'S INDIAN PULMONARY BALSAM, by being witness to some most *wonderful cures* of CONSUMPTION, performed by its use, in Monticello, Sullivan Co., New York about a year since; and have since felt anxious that its great efficacy might become more generally known. The last summer I had a brother-in-law quite sick with consumption, and I felt confident from what I had seen of the efficacy of BRANT'S BALSAM, that if I could procure it for his use, it would cure him; and as we could not find it in this county, I went to Sullivan county, about ninety miles, and purchased several bottles; but before I returned with the medicine, he died. One of my neighbors was then very much affected with pain in the breast and side, and with such a tightness and tightness across his chest, that he has shed with great difficulty. He used one bottle of the medicine that I brought, and it gave immediate relief, and cured him. My wife has used another bottle, and she says it has done her more good than all the other medicines she ever took. From the benefit these persons have derived, and from my recommendations, from what I had previously heard and seen of its good works, many persons here are now wanting the medicine; and as there is no agent in this town, they have requested me to write for an agency.

Yours respectfully, IRA JOHNSON.

DOCTORS COULD NOT CURE.

Mr. CORNELIUS H. SMITH, merchant, *Collin Centre, Erie Co., N. Y.*, January 16, 1849, wrote: Your BRANT'S INDIAN PULMONARY BALSAM and BRANT'S PURIFYING EXTRACT are nearly all sold; and I want immediately another supply, for they *sell more rapidly, and give better satisfaction*, than all the other medicines we have for sale.

DR. CHRISTIE'S GALVANIC BELT, BRACELET NECKLACE

AND

MAGNETIC FLUID.

For the Removal and Permanent Cure of all

NERVOUS DISEASES,

And of those Complaints which are caused by an Impure, weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the agentic powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the *most valuable medicinal discovery of the age*

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in FITS, CRAMP, PARALYSIS and PALSY, DYSPEPSIA or INDIGESTION, RHEUMATISM, ACUTE and CHRONIC GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST, LIVER COMPLAINT, SPINAL COMPLAINT and CURVATURE of the SPINE, RETENTION, DISEASES OF THE KIDNEYS, DEFICIENCY OF NERVOUS and PHYSICAL ENERGY, and all NERVOUS DISEASES which complaints arise from one simple cause—namely,

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS, Drugs and Medicines *increase the disease*, for they weaken the vital energies of the already prostrate system, while under the strengthening, life-giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists in the fact that they arrest and cure disease by *internal application*, in place of the usual mode of dragging and physicking the patient, till exhausted Nature sinks helpless under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the least injury under any circumstances. Since their introduction in the United States, only three years have elapsed, more than

60,000 Persons

including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else had been tried in vain!

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with Gout, one of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken which, by their action on the nerves and muscles of the stomach, afford *temporary* relief, but which leave the patient in a lower state, and with injured faculties; after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worst symptoms of an attack, and simply tie the Belt around the body, using the Magnetic Fluid as directed. In a short period the invariable perspiration will set on the extremities of the feet, thereby causing a free and equalized circulation which will prove to be the positive, and the cold feet to be negative, thus keeping up a continuous galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

CERTIFICATES AND TESTIMONIALS

Of the most Undoubted Character,

From all parts of the Country could be given sufficient to fill every column in this paper!

AN EXTRAORDINARY CASE,

Which exclusively proves that

"Truth is stranger than Fiction."

The following letter, narrating one of the most remarkable cures in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey, of distinguished attainments and extended reputation:—

SUSSEX, New Jersey July 12, 1848.

Dr. A. H. CHRISTIE—Dear Sir: You wish to know of me what has been the result in my own case, of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about twenty years I had been suffering from Dyspepsia. Every year the symptoms became worse, nor could I obtain permanent relief from any course of medical treatment whatever. My physicians were skillful and excellent men; but, in my case, their prescriptions failed. About fourteen years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which, year after year, fastened the more firmly upon the organs. In the severest paroxysms, the shield of my joints sometimes affected me for one or two weeks. But the Dyspepsia relief was only temporary. Failures in the winter of '45 and '46, in consequence of publishing a great deal in my own and various other churches in this region, I was attacked by the Rheumatism, which was so severe as to require an immediate suspension of my pastoral labors. My attack was so severe that I was quite prostrated and in my Rheumatic horror were, no doubt, my Dyspepsia and Rheumatic affections thus evincing that their affinities were connected with each other through the medium of the Nervous System. My suffering was severe for a year, and I had to suspend other than being entirely laid aside from the discharge of those duties, and the performance of those labors in which my soul has ever found the highest of her joys.

But reasoning from effect to cause, I concluded that the Nervous System was at fault, and that the proper remedy was to reach it, before any hope could be indulged of my obtaining relief from these most distressing maladies. In the whole pharmacopeia there seemed to be no remedial agent which could reach and incorporate my Nervous System; every thing that I had tried in this way, had completely failed. About two years ago, my friends seeing my suffering, and my inability to work, with no very sanguine hope, induced me to try Christie's Galvanic Belt, hoping the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. The result was astonishing, IN FAVORABLE CONTRAST WITH MANY OTHERS I HAD TRIED, IN SHORT DAYS I WAS ENABLED TO RESUME MY PASTORAL LABORS; SEE HERE I HAVE PERFORMED A SINGLE SERVICE OR MORE EVERY SABBATH, AND MY RHEUMATIC AFFECTION SEEMED CLEAN TO HAVE LEFT ME. If time permitted, I could fill a sheet of foolscap with the details of my sufferings, but I can only further say, in this brief statement, My Dyspepsia I have not entirely lost the Rheumatism seems to be entirely gone. I can now exercise, and it is easily accessible, and I feel perfectly free from its kindred symptoms, and my Bracelet effection is entirely cured. Such is the wonderful and happy results of the experiment.

I have recommended the BELT and FLUID to many who have been long in suffering from Neuralgic affections. Many have tried them, with happy results, I believe in every case.

I am, Dear Sir, very respectfully yours,

BOLLIT W. LANDIS

DR. HOOFLAND'S

CELEBRATED GERMAN BITTERS,

Prepared by

DR. C. M. JACKSON,

AT THE GERMAN MEDICINE STORE,

120 Arch Street, Philadelphia.

Their power over the above diseases is not excelled—it equalled—by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal, safe, certain and pleasant.

READ AND BE CONVINCED.

Capt. Robinson, Esq., Easton, Md., in a letter to Dr. Jackson, January 9, 1850, said—

"My wife and myself have received more benefit from your medicine than any other we have ever taken for the Dyspepsia and Liver disease."

"The Tenth Legion," published at Woodstock Va., January 10, 1850, said—

"A GREAT MEDICINE."

"We have uniformly refrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of notice is the *German Bitters*, invented by Dr. Hoofland, and prepared by Dr. Jackson, in Philadelphia. One instance in particular, in which the superior virtues of this medicine has been tested, has fallen under our observation. During the last summer, a son of Mr. Abraham Crabill, of this county, was very seriously afflicted with Liver Complaint, and after trying in vain various remedies, he purchased a bottle of the Bitters, and after using it, was so much relieved of his distressing malady, that he procured another bottle, and is restored entirely to health."

READ FURTHER A FEW FACTS

From "The Weldon Herald," published at Weldon, N. C., January 25, 1850, which said—

"*Patent Medicines.*"

"It is very seldom that we make any allusion to Patent Medicines, either approving or otherwise. Unfortunately for the country, and for honest and conscientious inventors and venders of these medicines, the land is becoming flooded with spurious preparations, that are made alone for profit, and are fit not even for the dogs. In this state of things it is hard to tell which are, and which are not worth having. If a person gets an indifferent medicine the first time he purchases, he is very apt to condemn the whole of them and buy no more, and inventors must only blame those of their brethren, (who ignorantly combine plain medicines together for the purpose of making money,) for the ill success which attends the efforts of the deserving."

"We believe Dr. C. M. Jackson's 'Hoofland's German Bitters,' to be a most excellent medicine, and one that should be highly popular in these days of Temperance—for they are altogether Vegetable in their composition, without one drop of Alcohol or Spirits in them. This medicine is innocent, but strengthening in its effects, and richly deserving of an unbounded popularity, which, when it becomes known, it will, no doubt, fully enjoy."

John M. M. Nash said, in his "Weekly Messenger," January 6, 1850,

"*Dr. Hoofland's German Bitters.*—Here is a preparation which the leading presses in the Union appear to be unanimous in recommending, and the reason is obvious. It is made after a prescription furnished by one of the most celebrated physicians of modern times—the late Dr. Christopher Wilhelm Hoofland, professor to the University of Jena, private physician to the king of Prussia, and one of the greatest medical writers Germany has ever produced. He was emphatically the enemy of humbug, and therefore a medicine of which he was the inventor and endorser may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsia, Debility, Vertigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the stomach, the liver and the intestines. Nine Philadelphia papers express their conviction of its excellence, and several of the editors speak of its effects from their own individual experience. Under these circumstances, we feel warranted, not only in calling the attention of our readers to the present proprietor's (Dr. C. M. Jackson's) preparation, but in recommending the article to all afflicted."

MORE EVIDENCE.

The "Philadelphia Saturday Gazette," the best family newspaper published in the United States. The editor says of

DR. HOOFLAND'S GERMAN BITTERS:

"It is seldom that we recommend what are termed Patent Medicines to the confidence and patronage of our readers; and, therefore, when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after it has done its guilty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approbation of the family itself."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt after using it as directed. It acts especially upon the stomach and liver; it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to *female or infant* with safety and reliable benefit, at any time.

BEWARE OF COUNTERFEITS.

This medicine has attained that high character which is necessary for all medicines to attain to it, but counterfeiters seek to put off their spurious articles, at the risk of the lives of those who are innocently deceived.

Look well to the marks of the genuine.

They have the written signature of C. M. JACKSON upon the wrapper, and the same blown in the bottles, without which they are spurious.

Please read the following certificate:

Read the following from an eminent physician:

The undersigned has compounded with some of the ingredients of Hutchings' Vegetable Dyspepsia Bitters, and having proved it for some time in his practice with every desired effect, he recommends this medicine from the certainty of its effect, and gives it a preference over all preparations in medicine for that distressing complaint, Dyspepsia.

T. HARDENBERGH, M. D.,
No. 1 Beach street, N. Y.

From Luther A. Wyman, Esq., Late President of New York Medical Society, now of Brooklyn:

The undersigned was afflicted with Dyspepsia of the worst form for one year and a half, during a greater portion of which time he made use of no remedies, but suffered the disease to take care of itself, until he was recommended to try Hutchings' Dyspepsia Bitters; he very soon derived benefit from the use of a few bottles of this medicine and now considers himself entirely well.

The undersigned has every confidence in the efficiency of Hutchings' Bitters for the cure of this troublesome and dangerous complaint, and he has no hesitation in recommending it as a most valuable medicine.

L. B. WYMAN,
N. York, Sept. 3, 1849. 38 Burling Slip.

The following certificate is from Mr. Brady, the celebrated Daguerreotypist:

Having been afflicted very severely with Dyspepsia, together with extreme weakness he was advised to take Hutchings' Dyspepsia Bitters, and have every reason to believe it has perfectly cured me. I have felt no symptoms of a return of the disease and believe from the effect it had on me that it will cure the worst cases of Dyspepsia.

M. B. BRADY,
No. 205 Broadway, N. Y.

The Proprietor of this medicine has received many other certificates of cures, equally remarkable, of the various diseases for which this preparation is applicable; but the above are deemed necessary to satisfy any unprejudiced mind of its value and superiority above all other preparations.

POTTER'S LINIMENT,

Or, External Remedy.

RHEUMATISM CAN BE CURED!

THIS invaluable remedy, which has entirely cured hundreds in this vicinity of the most excruciating of all complaints, Rheumatism, is now offered to the public with an entire confidence that it will do all that is promised for it. As a safe, certain and speedy medicine for Rheumatism, Lameness, Tic Doloureux, Headache, &c., it never has been and it never can be surpassed. Let those who doubt this, call upon the proprietor, who will satisfy them as to one of the perfect truth of these statements. The External Remedy is itself a new medicine, and never was used in this country until introduced by the proprietor. As an adviser of that class of diseases which it professes to treat, it is destined to win immense public favor. To suffer with Rheumatism when relief is at hand, is the height of folly.

DRAWING—ARCHITECTURAL and MECHANICAL.—As this is the season for young mechanics and others to apply themselves to the attainments of the greatest aid to the engineer in their various pursuits, viz:—a thorough knowledge of Geometrical Drawing.

We would call their attention to "Mantée's Text Book of Scientific Instruction," being a complete manual of Mechanical Drawing, including Geometrical Drawing and Perspective, illustrated with 56 steel plates, and explained in a familiar manner, rendering the attainment of the art easy and agreeable.

From the New York Scientific American.

"It is the best work on Drawing that we have ever seen; no young Mechanic such as a Machinist, Engineer, Cabinet Maker, Millwright or Carpenter, should be without it."

From the Baltimore Western Continent.

"He, who having thoroughly mastered this book, cannot make any of the ordinary drawings of this kind, may well despair of ever being able to accomplish such a result.

From the National Intelligencer.

"Indeed, one who patiently and carefully goes through it could not be said, so far as principles and methods are concerned, any longer to want a master."

From the American Railroad Journal.

"It is commended to those best qualified to judge of its merits, as being the most thorough and complete work of the kind ever published in this country."

"It has received universal commendation from the press, and we believe that it merits all that has been said in its praise. Price $2,00.

PARTICULAR NOTICE.
